**We are proud to announce a special offer, a unique piece of furniture for the discerning connoisseur, this luxury Sofa-cum-Altar.**

Specially designed to enhance your fetishistic pleasure, this one-off item has been hand-built by our experts to maximise your experience. It has been made from the finest materials, all individually selected for elegance.

Long lasting and durable, it can be dismantled in a matter of minutes into three sections for easy transportation so you can take it with you where ever you go, the top and bottom cushions being removable and can be folded into the two side cupboards provided, both of which are padded internally so as not to damage the black leather vinyl finish. The cupboards are spring-locked for safety. Also provided is a lockable rear cupboard to keep all your ritual implements for easy storage. Four chrome-plated feet are fitted to the back and base units so that the main section can be stood upright safely when not in use. All studs are removable and can be packed away to avoid damaging their sharp tips. The removable anchor chain must be fitted when the sofa is in use to give it additional support. The main section can be fixed into three different positions depending on how it is going to be used; low for a sofa, middle for a rack, and high for an altar. The removable armrest cushions give added comfort and support for whatever type of working.

Specifications: 84" X 44" X 38" when assembled. Total weight = approx. 44 kilos. Four cushions; 2 large, 2 small. 66 studs; 42 small, 24 large. 8 castors. 1 heavy duty chain (56" long). Comes complete with a set of instructions, Certificate of Authenticity, and the original plans so that we cannot duplicate it for anyone else.

We repeat, this is a unique opportunity to purchase a highly individual piece of equipment.

**One thousand pounds, UK sterling (buyer collects)**
